1. What do you like about the current waitlist and permit system? Why?
2. What changes to the current system would you like considered? Why?
3. Do you have suggestions for a different system that could work here, what are they, and why?
4. If a new system is implemented, what should happen to the people on the current list?
5. Aside from changing the allocation, should something else be done to limit the overall length of the waitlist, and if yes, what?
6. To what extent is repeat river use at Grand Canyon appropriate?
7. How far before launch should start dates be reserved?
8. What other permit system issues would you like to see addressed?
